Reference: F-2010-00456

Dear (b)(6)

This acknowledges receipt of your 20 January 2010 letter concerning your 4 January 2010 Freedom of Information Act (FOIA) request for records concerning Heather Hagen Stemler, Mark Stemler, and Marvin Douglas Schumacer (Schumacher). Your letter does not provide the complete biographic information we need to process your request.

As we explained in our 14 January 2010 letter, to conduct thorough and diligent searches for records on an individual, we need the complete biographic information for each individual, including specific date and place of birth, as well as citizenship status. We also ask for authorization from a living individual to release information were we to locate any. If the individual is deceased, we require some proof of death so there are no privacy considerations.

With respect to the last paragraph of your current letter, in which you refer to a submission of a request from you dated 12 January 2010, we must advise that our records reflect that we have not received such a letter.

We have canceled this request because you have not provided the necessary biographic information on the individuals named above. If you can send us the complete information in the future, we will be happy to consider a new request.

Sincerely,

Delores M. Nelson
Information and Privacy Coordinator
